

Table component :

We need a Vue.js Component with the following features, We have screen shots for each

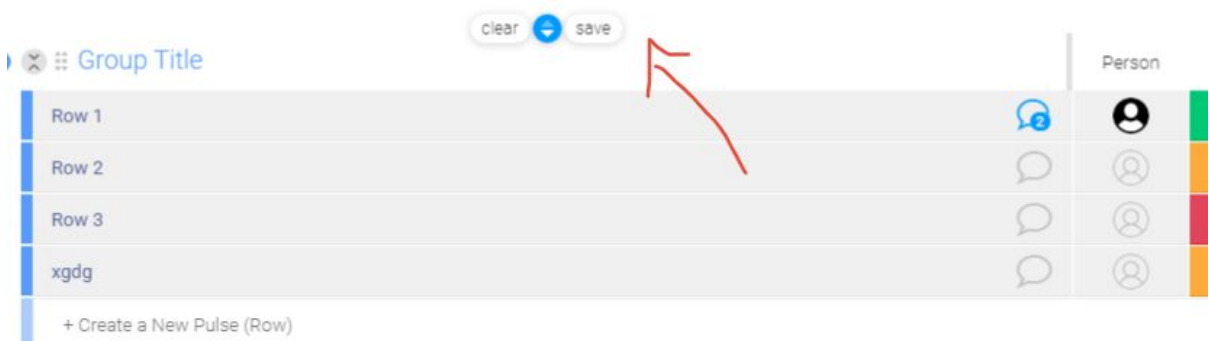

1. All the row elements must be editable -- <https://snag.gy/EdRs5r.jpg>

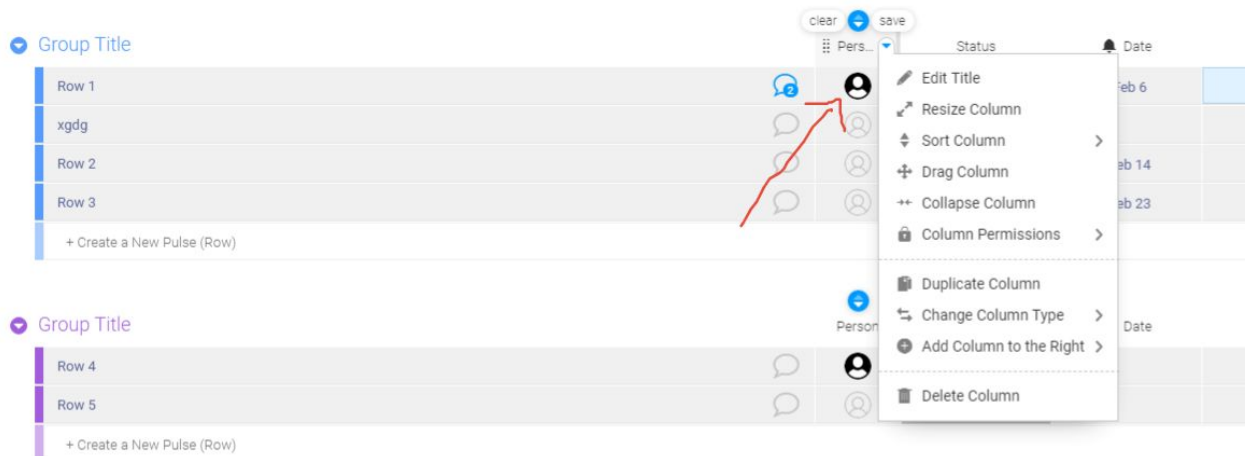

2. All the rows under a group must be collapsed and expanded -- <https://snag.gy/vyksgd.jpg> ,

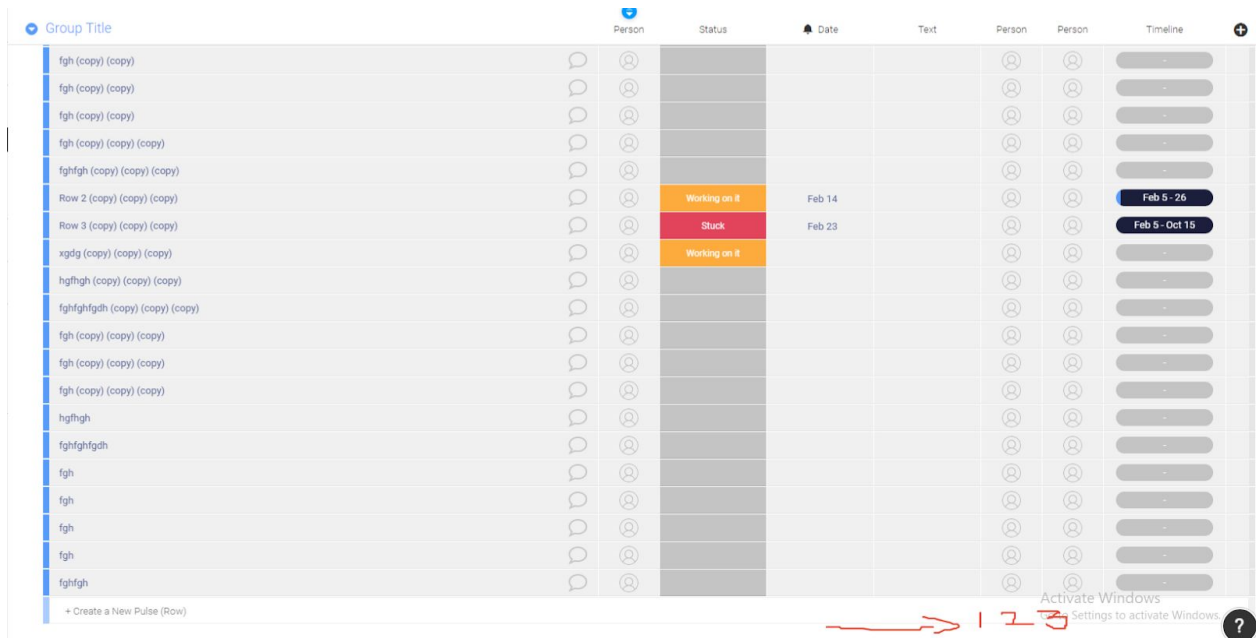

3. Sort Options on each header -- <https://snag.gy/IPB7yq.jpg>

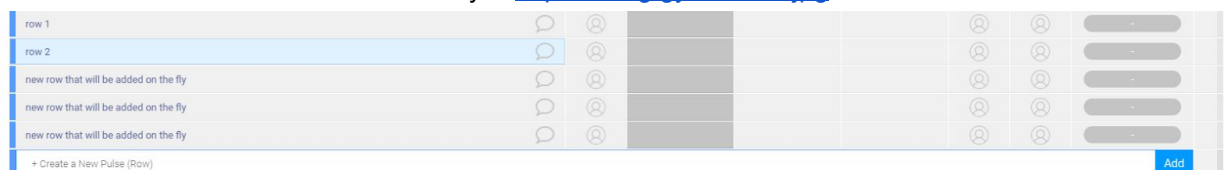

4. Bulk actions on each column -- <https://snag.gy/28rHEf.jpg>

5. Pagination must be there on the table if rows are exceeded -- <https://snag.gy/46fMbB.jpg>

6. We should be able to add rows on the fly -- <https://snag.gy/9wkYiR.jpg>

7. We should be able to add new columns i.e headers on the fly and define its data type(Data type can be Number (On number the operations must be performed like sum, average , mean , median , highest number , lowest number) , Text , Date range , Star rating , person , Long text , checkboxes , Hyperlinks , progress bars) -- <https://snag.gy/Lmf4l5.jpg> , <https://snag.gy/RiYdAH.jpg> , <https://snag.gy/ylwjVY.jpg>

8. Drag and drop of rows -- <https://snag.gy/ESh1k5.jpg>

The first screenshot shows a table with columns: Group Title, Person, Status, Date, Text, Person, Person, and Timeline. A red arrow points to the 'Add column' button. The second screenshot shows a dropdown menu for adding a column, with options: Status, Text, Person, Timeline, Date, Tags, Numbers, and Column center. The third screenshot shows a table with columns: New Group, Status, Person, Timeline, Date, Text, Person, Text, Check, Tags, and Numbers. A red arrow points to the 'Add column' button. The table contains rows with data like 'row 1', 'row 2', 'new row that will be added on the fly', 'row 4', and 'row 5'. A summary row at the bottom shows '5/5' and '0 sum'.
